

Water Peddlerz (Age 3 upwards)

Kids absolutely love propelling themselves along and turning at will

Waterpeddlerz are ideal for children from 3 to 12 (But older people like them too)

Upper comfortable weight limit is about 50/60KG although heavier people can ride (they may just get wet with the back of the boat dipping into the water)

It's safe and active fun giving children the freedom and chance to row around to their heart's content
Can be very profitable, can fit many boats into a small area
