

# Waterwalkerz

Human Hamster Ball on Water  
(And you don't even get wet!)

Great exercise - Great Fun - Very Profitable

## Fantastic Fun and Fitness on Water

'Getting children & adults excited about fitness and swimming'

**Great Earning and Publicity Potential**

During regular swimming times, parties, fitness sessions, special events.....

**“Best things we ever bought!”**

We sell out every Friday night 5pm-7pm. The doors are closed before 5:15pm due to the number of children attending.

Lampeter Swimming Pool Manager: John Whitworth

**Cadbury house**

**“This is the best thing I have seen for years”.**

“When I first saw this new innovative product it was a must have for our leading edge club. Our members are finding this new challenge great fun whilst taking part in a tough exercise session.

Cadbury House Managing Director: Nick Taplin

**“All pools should have them”**

“It’s a really simple and fun activity.  
Horfield Leisure Centre manager Nick Masson

**“A must for any leisure centre”**

I really recommend anyone getting them, simple, cheap, generates it’s own interest”. Duty manager John Tremlett

**Fantastic session for all our sites worldwide**

In2action Training Manager: Tim Sissons

**Customers tripled when we added Waterwalkerz**

Aberaeron Centre Manager: Martine Branford

**“The funniest experience I’ve ever had on water”.**

Rebecca Harris

**“It’s the best fun I’ve had for ages”**

Customer Services Manager: Nicole Booth

**leisureopportunities**

"It was great fun, you don't realise how much you can do with water.  
It was like being in a giant hamster ball"

Simon Jones, commercial manager for Astralpool UK

**Endless Activities:** Simply playing and the challenge of running on water is enough fun for any child or adult but you can also incorporate Waterwalkerz into fitness sessions, have races, competitions, high scores for stamina, distance etc. You can even have football style games.

- Very safe and easy to operate.
- Earn £50 or \$80 per hour per ball, 2 lifeguards and 3 balls (20-30 children can have a go using only a small area of your pool or inflatable pool/lake).
- 2 operators control many balls at once
- Indoors or outdoors all year round (on any pool/lake/inflatable pool)
- Always safely tethered by ropes
- A 5 minute ride is enough for the most energetic child or adult (exhausting fun)
- People try again and again to hone their skills
- The TPU Polyether material is very strong and durable.

**FAQ Is our pool too small?** No! It even works very well in an 8 foot diameter paddling pool. Surprisingly even in the smallest of pools you can use at least 2 or 3 balls at once.

**How many balls can we get in a pool?** Even in a 25 meter pool you can easily have 5 or more balls at once using only half of the pool. There is no problem with them banging into each other because they simply slip off each other. Even pools which are not deck level are fine.

**How strong are the balls?** Very strong, they are often used on pebble beaches, the material is very resilient.

**Are the balls easy to repair if they get punctured?** Yes very easy. Simply glue on a patch and it's as good as new.

**What happens if it pops?** It won't pop, it may have a slow puncture and if that happens it is easy to repair. Even with a large hole the ball will keep it's shape for over 5 minutes and you can run around normally getting only slightly wet. Please see our online video for a full demonstration of this.

**Will the person run out of air?** No, there is enough air for about 30 minutes and a 5 minute ride is enough even for the most energetic person. It's really exhausting!

**Is there a weight limit?** You should stick to a 200lbs or 90 Kilogram weight limit. However we have had people over 250lbs or 110 kilograms with no problems whatsoever.

**What kind of activities can we do with the balls?** Usually just free play is enough but you can do any number of races, competitions, Waterwalkerz football/sumo, fitness sessions etc.

**Can I use our blower that we use for our other inflatables?**

Yes, you can use your own or use ours.

**What if a child hits their head on the side of the pool?** This is difficult to do even if you try. Plus we recommend that you have mats where the balls enter and exit the pool. The child is sitting when entering and exiting the pool and the balls are always on ropes and supervised. If the ball comes close to the side of the pool it is simply pushed away by the lifeguard (very easy to control safely).

100s of Locations all over the UK and worldwide. From small independent pools, Leisure centre groups, holiday chains, lakes, scout activity centres etc
